

SHIVANSH GOEL

Frontend Developer

+91 9458569110 | shivansh.goela12@gmail.com | Delhi, India | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Frontend Developer building responsive, production-ready user interfaces with React, Next.js, and Angular. Experienced translating requirements into clean, component-driven UIs with Tailwind CSS, PrimeNG, and Minimal UI (MUI), integrating REST and AI-powered APIs, and optimizing performance and stability. Focused on accessible, maintainable frontends across desktop and mobile.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks and Libraries: React.js, React 19, Next.js, Angular, Component-Driven Architecture

UI and Styling: Tailwind CSS, PrimeNG, Minimal UI (MUI), Responsive Design, Reusable Components, Modals

Frontend Integration: REST APIs, JSON, Fetch, Client-Side State, Server-Side Rendering (Next.js), LLM/AI API Integration

Tooling and Workflow: Git, GitHub, Firebase Tools, Cloudflare Workers, Debugging, Cross-Browser Testing

Backend Awareness: Node.js, FastAPI, Supabase, Redis (integration and data fetching)

PROFESSIONAL EXPERIENCE

Full Stack Developer, Intern

December 2023 – May 2025

Tedforge Solutions Private Limited

India

- Across a 17-month internship, built responsive client-facing interfaces with React and Angular across desktop and mobile, turning requirements into production-ready UIs.
- Integrated frontend interfaces with Node.js REST APIs and MySQL and MongoDB-backed data, improving the responsiveness of product interactions.
- Improved UI stability by reducing reported bugs 40 percent through systematic debugging and refactoring, collaborating through Git and GitHub.

PROJECTS

GhostRelay – Privacy-First Email Aliasing Platform [Live] [Source] | Next.js, React 19, Tailwind CSS, Cloudflare Workers, Cloudflare D1

- Built a responsive Next.js and React 19 dashboard for a privacy-first email aliasing platform, with a clean Tailwind CSS interface for managing aliases.
- Implemented one-click alias creation with per-alias enable and disable controls and interactive UI states, and designed accessible, mobile-friendly layouts with loading, empty, and error states.

Quizify – AI-Powered Assessment Platform [Live] | Next.js, React, Tailwind CSS, Supabase, Google Gemini

- Built the frontend of an AI-powered assessment platform with a responsive quiz-taking interface, dynamic rendering, and Tailwind CSS styling.
- Built interactive quiz flows with client-side state management and instant feedback, rendering AI-generated question, options, answer, and explanation data from a secure server-side proxy.

FiTrack AI – Adaptive AI Fitness Platform [Live] | Next.js, React, Tailwind CSS, Machine Learning, Google Gemini

- Built a responsive React and Next.js interface for an AI fitness platform, presenting personalized, goal-aware workout guidance and performance insights.
- Built performance and progress views that visualize user history and render AI-generated, plain-language feedback in a clean, responsive UI.

Ziplink – URL Shortener SaaS [Live] [Source] | Next.js, Firebase, Tailwind CSS

- Built a responsive Next.js interface for a URL shortener SaaS with brand-ready link creation flows, QR-code downloads, and analytics views.
- Designed clean, mobile-friendly dashboards that make each shared link easy to manage and measure across campaigns.

EDUCATION

Bachelor of Technology in Computer Science and Engineering

2023

COER University

Roorkee, India

- Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, Software Engineering.

CERTIFICATIONS

Angular 16 with TypeScript 5.2 and PrimeNG 16 | TypeScript 5.2 – Microsoft

Python 3.11 Programming with FastAPI Backend Framework | Onsite Technical Internship – Trainee Software Developer (Full Stack)
